NOTES:

1. Install four (4) anchor bolts, item 4, as per manufacturers specification.
2. Set base plate item 1 to proper height and level as specified, using greased leveling screws. Remove plate and apply a layer of grout in plate area slightly higher than required. Bolt base plate down to preset screws, squeezing out excess grout. Double check height and level. Remove leveling screws after approximately 2 to 3 hours.
3. Place scale assembly into pit with removable deck installed. Check for even gap between decks and pit coping all around scale.
4. Remove decks and transfer drill holes for four (4) anchor bolts, item 4. Install anchor bolts as per manufacturer's specification.
5. Tighten anchor bolts.
